### Hawk And Crow Club.

Hardin county has a Hawk and Crow Club, and at its annual meeting last week the members showed up with 550 heads for 92 hawks and 468 crows killed by them during the year. Cash prizes were awarded to the winners. The work of this club could be well emulated in other Kentucky counties, and do lots of good for the farmers.

### Farmers' Chautauqua for Madison County.

Since the wonderful success of the Farmers' Chautauqua in Warren county, which just closed, there has spread a wide interest in this new movement over the State. President Crable, of Eastern Kentucky State Normal School, is considering the inauguration of just such a series of Farmers' Meeting in Madison county. Last Saturday afternoon a committee of representative farmers met in Richmond and appointed Jesse Cobb as chairman, Walter Bennett and H. B. Hanger as vice chairmen. A general meeting of all those interested in this progressive line of education among farmers is planned for next Saturday, August 23, at 3 p. m. at the Court House. All are cordially invited.

Probably the Chautauqua will be held at three different and accessible places in the county, during three successive weeks, beginning on a Sunday. The topic for the Sunday programs will be The Rural Church and how to make it serve the community. Addresses, sermons and discussions will be heard by both clergy and laymen. During the week a continuous program will be carried on, morning, afternoon and night, including instruction in agriculture, dairying, all kinds of farm demonstration, school hygiene and sanitation, cooperative marketing, fruit growing, etc., etc. Experts from all over the country will speak and demonstrate their specialties. A leading feature will be the round table discussions and stereopticon lectures on vital questions relative to the farm and the rural community.

### Welcoming The Coming and Speeding The Parting.

#### OPINION OF AN EXPERT.

E. C. Walton, editor of the Richmond Climax, than whom the State has never produced a more courteous nor more loyal friend, relinquishes the editorial charge of the Climax Monday into the hands of his brother, Col. W. P. Walton, of this city, and returns to his new home in Florida, whither he goes to enter the daily field at Orlando.

Kentucky newspaper men regret to

see Ed Walton. He has won both fame and fortune at his chosen profession, and he deserves all he has won. A man of kindly instincts, of gentle breeding, finished in equipment as he is broad and manly of purpose, he takes to his new field of endeavor the experience and the judgment of mature years and thorough training.

Mr. Walton publishes the following feeling valedictory in the Climax Friday, which explains the arrangements made for the perpetuation of the Climax. (Article follows.) — Lexington Herald.

### GLAD WE ARE BACK.

Col. W. P. Walton, of Lexington, the well known editor-politician, has again demonstrated that he cannot keep out of the active editorial game by acquiring the interest of his brother, E. C. Walton, in the Richmond Climax, and of which it is said he will take active next week. Although he has been busy conducting part of the editorial page of the Lexington Herald, Col. Walton just naturally was not satisfied until he got another paper in which he would have the whole "say so." The editors and politicians all over the State will welcome Col. Walton's re-entry into active newspaper work.—Saturday's Louisville Times.

### PREDICTS SUCCESS.

Col. W. P. Walton, the veteran journalist of this city, who for several years has been contributing editor of the Lexington Herald, will on Monday assume editorial charge of the Richmond Climax, succeeding his brother, E. C. Walton, who has retired from that paper to return to Orlando, Fla., where he has formed a partnership with George C. Keller, formerly of this city, in the publication of the Daily Reporter-Star.

The Climax is one of the oldest and best papers in the State, and under the management of Col. Walton, who is universally regarded as one of the ablest editors in Kentucky, will no doubt take a new lease on life. While Lexington will regret to lose him from its ranks of newspapermen, there is some consolation in the thought that he will make the columns of the Climax team with his brilliant scintillations that made the old Standard Inter-County Journal, of which he was the proprietor and editor for more than a quarter of a century, one of the most widely quoted country newspapers in the South.

E. C. Walton formerly owned and edited the Orlando Daily Reporter-Star, but sold the paper to Mr. Keller some two years ago. The business has grown to such proportions that Mr. Walton decided to buy back a half interest, which he succeeded in doing last week.—Lexington Leader.

### For Sale.

On Saturday, Aug. 23rd, at 2:30 p. m., we will offer at public sale in front of the court-house, one 1910 model E. M. F. Touring Car. This car has just been remodeled, all the parts are new and it is in first-class condition. Any person interested can call at our garage and try out the car. The Citizens' Garage Co., Richmond, Ky. 92-3t

### NEWS NOTES

Postmaster General Burleson inaugurated the new parcel post rates by mailing to President Wilson a box of fine Georgia peaches.

Gov. Hodges of Kansas, has been flooded with letters urging that he issue a proclamation setting aside one day for special prayers for rain.

W. A. Coffey, for many years a member of the Lincoln county fiscal court and one of that county's very best citizens, is dead in the McKinney section.

Miss Kiffie Smith, who is armless, marked her ballot with her foot when she voted at the first election in Chicago under the new woman suffrage law.

George McLowell, formerly of Spartanburg, S. C., died in Baltimore as physician made a last effort to save his life from a growth that 200 operations had failed to remove.

No rain has fallen in the Illustrious section of Lincoln county since May 22, and vegetation is literally parched. The corn crop in that county will be very short this year.

After a Sunday-school picnic in Chico, a park policeman rounded up 42 stray infants and had to spend \$1.75 in peanuts and candy to keep them quiet while was finding their mothers by telephone.

Hon. J. Will Clay was declared the winner of the Senatorial nomination in the Montgomery, Clark, Bourbon district by a majority of seven. His opponent, Rufus Adlender, will likely appeal to the courts for a reversal on account of irregularities.

W. J. Baxter, who was defeated for the democratic nomination for attorney of Jessamine by 31 votes by W. M. Watts, contested on account of spoiled ballots, but Judge Hardin decided in the Lincoln circuit court against him and the case will be taken to the Court of Appeals.

Mrs. Eugene Steret, of near Skillman, Ky., is critically ill of blood poisoning. About ten days ago while feeding the chickens, a hen pecked her on the hand. Blood poisoning developed and it was found necessary to amputate her arm. Her physicians do not hold out any hope of recovery.

We receive every morning a full line of green vegetables and would be glad to supply your wants. Phone 72 & 111 Covington Thorpe Co. 57-ff

### We have arranged for a Special Sale

On the celebrated Stearns & Foster Mattress and are offering this most Comfortable, Durable and Sanitary of all Mattresses, in selected patterns of the best qualities of Satin-finish, Dust-proof Tickings—WITHOUT EXTRA CHARGE.

Beware of so-called "Special Sales" on "Cotton-felt" or "Felt" Mattresses—said to be the "genuine kind" and offered at such ridiculously low prices as are sometimes seen displayed. You do not know WHAT sort of material has been hastily STUFFED into the ticking. From a Sanitary standpoint, it may be vile; unfit for any person to sleep upon. As for genuine Comfort and Durability, such Mattresses are utterly worthless. It don't pay to buy them.

Stearns & Foster Mattresses have a laced opening (Pat. applied for) through which you can see and examine the inside of the Mattress you GET. That's the safe way to buy a Mattress. You know what you are getting.

Stearns & Foster Mattresses are made of Clean, Sanitary Cotton; felted into hundreds of little webs forming many Springy, Buoyant layers standing nearly three feet high. These layers are LAID BY HAND and compressed to ONE-SIXTH their original height and encased in the ticking; then tufted to just the proper tension so as to be Soft, yet Firm, half yielding to your figure, but supporting it in perfect relaxation.

You will say—

#### "I never Knew a Mattress could be so Comfortable."

That's just what satisfied users of Stearns & Foster Mattresses are saying. You owe it to yourself to get one and enjoy rest that is Refreshing—Comfortable—Heathful.

You don't have to be put to the expense and inconvenience of sending a Stearns & Foster Mattress away to be "Made Over" or "Renovated." They never require it. An occasional Sun Bath keeps them fresh and clean.

### Don't Fail to attend this Sale. Come today.

Select the Mattress you want—NOW. Don't put up longer with that old uncomfortable Mattress.

### To the Patrons of The Climax.

As announced by my brother, Mr. E. C. Walton, in the last issue of the Climax, a change has taken place in the editorial management of this paper. That same announcement was had enough, but the word is yet to come. The man who is to rule all around like a dry pea in a pod, trying to fill his place is in your midst, and I fear there is no help for you. An unabashed guest is rarely regarded with patience, and I fear that I will prove no exception, but I am going to try my best to deserve your good will and patronage and try, try again if I fail at first to succeed.

I do not feel that I come among you as a stranger. The greater part of my life has been spent in counties adjoining or contiguous to the good county of Madison, while engaged in editing papers at Stanford and Lexington. For fourteen years I have been on daily papers, the work on which is very different and decidedly more strenuous than on a paper of less frequent issue, but I hope to soon adapt myself to the new order of things, which were so long the old with me, and give you a paper worthy of your patronage and to which you can point with pride, as the political platform usually recite.

Born, reared and grounded in the Democratic faith, I could not make the Climax otherwise than it has always been, a faithful exponent of the cause of the people, and I shall at all times and on all occasions defend the principles of my party. Years have, however, taught the wisdom of appeal to intelligence instead of to prejudice, and I am sure that there will be no rough and tumble political fights between our friend, Ed Smith, of the Pantagraph, and ourselves as characterized our enthusiastic younger days, before the hand of time had sprinkled snow in our gradually disappearing locks.

If I succeed in making the Climax the newsy and pecuniary success I hope to do, I shall move my family here and live and die with you. It is with me to do

ARMY officials complain of the falling off in enlistments. The reason for it is obvious. Not many young men who expect to become anything are willing to give up seven of the best years of their life with no promotion higher than or derly sergeant. The term of enlistment has been increased from three to seven years. Besides, too, few young men of spirit want to submit to the slave life and be caged sound by whipper snappers with shoulder straps, who cut such fantastic tricks to make the angels weep.

THERE is one inequality that P. M. General Burleson should cut out of the parcels post. He has increased the limit to 20 pounds and reduced the postage, but continues to let books be prohibited from being sent by it, which are still subject to the former high price. It is a tax on knowledge and a discrimination inexcusable. Besides, too, if the book weighs over four pounds it won't be carried at any price.

ACCORDING to Col. Goethals, chief engineer, the first ship will pass through the Panama Canal in October, when the greatest undertaking of modern times will be accomplished. It has cost a mint of money, but the end will justify the outlay and maybe, too, the means that President Roosevelt adopted to secure the route, but we doubt it.

EDITION KNOTT, of the Louisville Post, is still showing in long-drawn out and very prolix editorials how dense is his ignorance on the currency question. Like Vanderbilt, we think it was, said of an egotistic son-in-law, Knott can be more kinds of a d—l fool than any man who ever happened to have a newspaper.

We buy all kinds of country produce, pay the highest market price. Give us a call. Covington Thorpe Co. 57-1f.

High Prices For Horses. High prices for horses again rule in England. J. T. Joes, a British sportsman, has bought what is now considered the world's race horse, Prince Palatine, and paid for him \$228,000. This horse is regarded as the finest "stayer" in Britain and will command a big fee as a sire. The next best price paid for a racer was about \$187,500, paid some time ago for Flying Fox. Another famous horse, Ormonde, was sold the late Duke of Westminster for \$60,000, and subsequently went to McElroy, an American millionaire, for \$156,250. August Belmont some time ago bought the horse, Rock Sand, for which he paid \$125,000.

#### Figure Out Relationship.

What is regarded by the pension bureau as the history of one of the most remarkable families ever coming before its notice was contained in a letter received from Dr. Wm. Warren, of St. Joseph, Mo. The letter was in reply to one from the pension commissioners, asking Dr. Warren for his family history, so that a readjustment in his pension might be made under the new law. Dr. Warren replied: "I do not know whether there was a family record of the births of all father's children, of whom there were 25 in all, by three wives, who were sisters, and of whom the first two wives were twins and the third wife also was one of the twins. My mother had triplets, three boys, of whom I was one. She had no other children. All of the other wives' children were twins. In all of the three wives there were thirteen boys, all of whom were soldiers. All of the 25 children are dead but myself." The veteran is 76 years old. He will get an increase of pension.

### BABY'S HANDS TIED.

Mother Tells How Saxon Salve Conquered Eczema.

"Last fall we noticed small rough and red spots coming on baby's hands. The skin was very dry and she kept scratching them until they would bleed. We lost a good deal of sleep with her. Finally we took her to the doctor and he treated her several weeks, but it kept spreading until we had to keep bandaging them and the doctor told us to bandage them several times a day they were so sore, and we used everything we could hear of for eczema. Finally our druggist told us about Saxon Salve. We tried it and one and a half tubes has entirely cured her. Her little hands are smooth and never scratch. Mrs. Mary Stevenson, Lebanon, Ind."

Think What We Do!

Kentucky paid \$35,300,906 in internal revenue taxes last year, the place in collection. Anderson county paid into the Federal treasury nearly \$3,000,000 a year of that total, yet no man has ever been named for Collector from Anderson county in this revenue district. We deserve better treatment. Think what we do!—Anderson News.

GOES TO THE SEAT OF RHEUMATISM

Rheuma quickly expels the cause and restores the whole system.

If you suffer from any form of Rheumatism, remember that RHEUMA goes to work quickly to remove the cause, not simply to relieve the distress. Many years use has demonstrated that it goes to the seat of the disease and expels the poison from the body. When the rheumatises, it is entirely cured. The result, and those who have suffered from it, know this through the natural channels—the kidneys, bowels, liver and skin.

These are the sewers of the system and RHEUMA leaves them working naturally and allows the strength to come back in full force. RHEUMA is guaranteed by B. L. Middleton, who sells it for 50¢ a bottle.

Deafness Cannot Be Cured

of local application, as they cannot reach the disease. That is why it is necessary to cure deafness, and that is why constitution and diet are important factors in the health condition of the human being. The cure of deafness is induced when there is a complete absence of hearing. When this fails to induce, then it is entirely cured. Deafness is the result, and those who have suffered from it, know this through the natural channels—the kidneys, bowels, liver and skin.

It will take pleasure in furnishing any further information you may wish.
